# Dear Visitor!

Welcome to Køge. Here you can stroll through our old alleys, visit the cosy local shops, explore our many small charming courtyards and have a delicious lunch at one of our tempting restaurants. On your tour you will also experience a totally new shopping area, Strædet, located next to the railway station and close to Køge's cinema. Wednesday and Saturday are market days, steeped in tradition, which you should not miss on your visit.

Explore our past at Køge Museum - or spend some time at KØS - the only museum of art in public spaces in Denmark and one of the few of its kind in the world. The many exhibits at KØS also include the sketches for the Queen's gobelins, created by the artist Bjørn Nørgaard.

To enjoy a very special atmosphere, visit Køge Marina, or take a walk along the South Harbour, Søndre Havn, where building activity to the south is currently at its height and a new recreational housing area taking shape. You will no doubt find it versatile and exciting. The development is located close to the water on the old industrial harbour, representing an interesting link between old and new parts of town.

A host of scenic experiences are in store for you in Køge. Bring your swimwear along to dip your toes from one of our lovely beaches.

Køge is an old medieval town offering plenty of surprises and things to do. Enjoy them all and look for other great suggestions for walking tours and activities for children and adults on [visitkoege.com](http://visitkoege.com)

# Køge is brimming with history

**Køge is an old medieval town with an exciting history for you to discover, on your own or accompanied by a guide.**

## **Town centre**

First time visitors always come in for a surprise at the sight of the beautiful, well preserved town centre with its long rows of Renaissance houses still following a medieval town plan. So take a walk through the charming medieval town centre with your family. Have a peep into the old courtyards or visit the market on a Wednesday or Saturday with its full trade in flowers, fresh fruit and vegetables.

## **City walk**

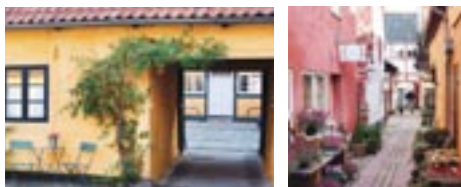

A free city walk guide is available, describing the old market town that was founded in 1288 by King Erik Menved. Should you want to be accompanied by a personal guide, telling you about the exciting history of Køge, it is possible to book a tour guide with VisitKøge where you can also pick up the city walk guide mentioned.

## **The history of Køge is still written...**

The area around Køge Station and Køge Town Hall is one of the new neighbourhoods in Køge, where unmistakably history melts into the present. Here the street called Strædet invites to cosy shopping and delicious food or a visit to the huge Nordisk Film Cinema. The new buildings and the old heart of town stand side by side.

Then pop down around Køge Harbour and the area to the south where the most recent part of town is springing up. Enjoy the recreational areas and Søndre Strand beach that is located here, just a stone's throw away from the town centre.

# Market days in Køge

## The Market Square in Køge

The Market Square Torvet and the small adjoining streets are brimming with specialist stores, restaurants, pubs and cafés. The Market Square offers open air eateries in the summer months, a fine opportunity to enjoy the cosy atmosphere in town over a refreshment.

## Visit the new Søndre Havn

**Right now, a totally new residential district, Søndre Havn, is shaping up in a marvellous location between the historic city centre of Køge, the harbour, the beach and the sea.**

### **Modern architecture**

The area is even now a great attraction to visitors interested in architecture. There will be 11 new blocks of flats to study from the spring of 2021, all with a clear statement of architectural diversity. Several trend-setting architecture firms have already set their marks here in a context laid down in the development plans for Køge Kyst.

### **Green areas and climate protection**

2021 is also the first year to present a unique characteristic feature of Søndre Havn – the commons, which are extensive green urban spaces inviting to social contact, all while ensuring climate protection as well as biodiversity.

Søndre Havn adjoins Køge's scenic beach meadow with its rare and hardy plants. Take a walk on Engkanten, on the border between the new neighbourhood and the beach meadow. This is a new promenade that also serves as protection against flooding and sea water rise.

### **Temporary urban spaces and art**

Worth visiting are also the temporary urban spaces with facilities for young and old alike – such as "Tidsrummet" (Time Space) to have a swing on its strawberry buoys, and "Opdagelsen" (Discovery) with an outdoor kitchen and town gardens.

You may also look forward to an art experience. Several blocks have their own works of art – e.g. Christian Schmidt-Rasmussen’s richly coloured wall paintings or Tina Maria Nielsen’s bronze sculpture inspired by a whale bone.

Another interesting sight is “Skibet” (The Ship), the hallmark in the gateway to the building of the same name, inspired by a 500 year old medieval ship that emerged on the construction site in 2018.

### Cultural route

In conclusion, Køge Kyst has created “Tråden” (The Thread), a cultural route along which a number of concrete steles serve as guides through an area in transformation. The steles also depict small stories from Køge’s city history, and each of them presents its own work of art, created and adapted to their site by Cai-Ulrich von Platen.

# History, atmosphere & ambience

**As a tourist in Køge Municipality you will find everything you could possibly wish for: History, atmosphere and ambience.**

The municipality's biggest town, Køge is a very beautiful medieval town with a delicately restored centre and a wonderful market square, which is today one of the best preserved in Denmark of its kind. In Køge you will also find Denmark's oldest town hall still in use as the municipality's administration centre. The town hall dates from c. 1552.

The town has a well organised commercial life with shops for every taste. Several shops are hidden behind the house fronts in the old part of town. It is also here, in the courtyards, that you can enjoy a cool refreshment to the tunes of live music in summer.

## **Splendid natural experiences**

The local countryside has great experiences in store for you: beaches in the east and woods in the west, such as the 22 km Køge River Path ending at the hills Regnekmarks Bakker and Dyndet, old bogland with a rich flora and fauna. Here is also a charming café, Malerklemmen.

Køge Municipality has an excellent infrastructure and good rail connections to Copenhagen as well as Roskilde and Næstved. By way of example, it only takes 20 minutes to reach Copenhagen Central Station from Køge Nord Station.

# Fishing possibilities throughout

**Køge Municipality offers some of Denmark's most interesting fishing waters. Here is the alluring Køge Bay with its huge silvery sea trouts and fat Atlantic cods, in addition to pretty lakes with fierce predatory fish, and both Køge River and Tryggevælde River hold record big perch, pike and trout.**

**KØGE BAY** is a unique brackish water habitat with a versatile fishstock and exciting fishing in store for you. The sea trout and perch have a splendid time here, and according to season you will also meet ide, mullet, garfish, cod and flatfish. Should you want to try at coast fishing, you will need a pair of waders, since it is often necessary to wade to the second or third sandbar to reach the belt of seaweed used by the sea trouts for habitat.

**ØLSEMAGLE REV** may offer good sea trout fishing in spring and autumn. Leave your car in the public car park at the end of the road, Revlen, north of Køge. Be aware of traffic regulations, however.

**STRANDVEJEN** is on a stretch south of Køge an excellent place to go for sea trout. Parking is possible in a public car park near the water opposite Vallø Camping. From

here you can go angling for 1.5 km to the south until you reach the preservation area starting by Vedskølle River.

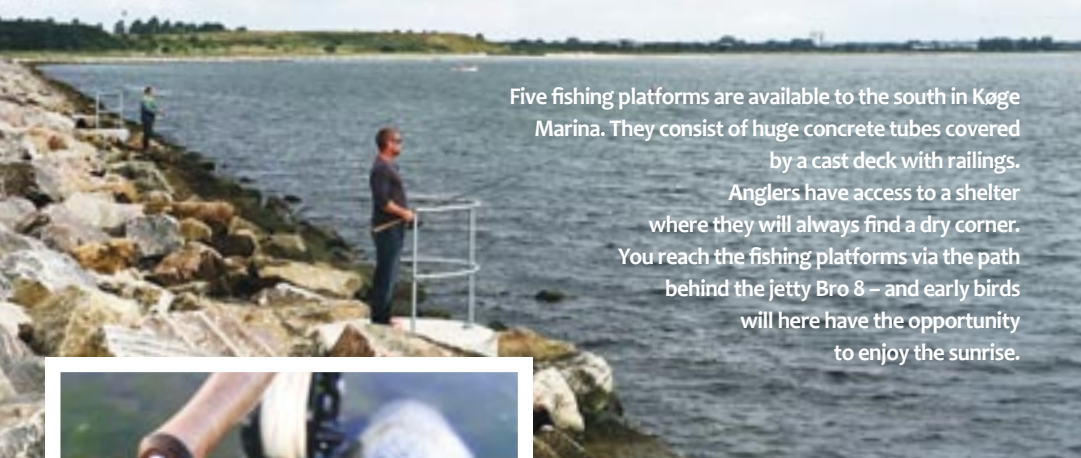

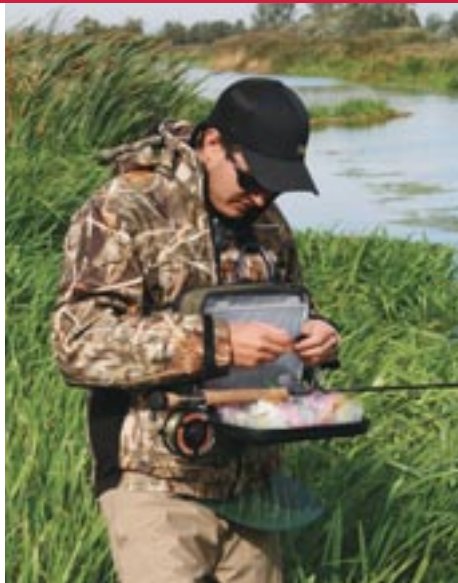

**SMALL BOAT AND TROLL FISHING** is possible in the entire Køge Bay, with excellent chances to catch big sea trout, small cod and flatfish. There is usually also lee for the predominant Danish westerly winds. You will find a boat ramp with a pay machine in Køge Marina.

**KØGE HARBOUR** is very attractive during the autumn and winter months, offering extremely exciting angling for sea trout and perch. These fish enter the harbour from Køge Bay on their way to Køge River. Several restrictions and preservation rules apply within the harbour. [www.fishingindenmark.info](http://www.fishingindenmark.info) shows an interactive map of various fishing grounds around Køge plus information about rules and the various zones.

**KØGE RIVER AND TRYGGEVÆLDE RIVER** are some of Sealand's very best sea trout streams. Both rivers also throw in huge brackish water perches. In addition, Tryggevælde River is noted for good pike and ide catches. Day cards are required for Tryggevælde River and are on sale at Aktiv Fritid, Torvet 19, 4600 Køge, aktivfritid.dk, tel: 56 63 15 33 or at Køge Sportsfisker forening, koegesportsfiskerforening.dk

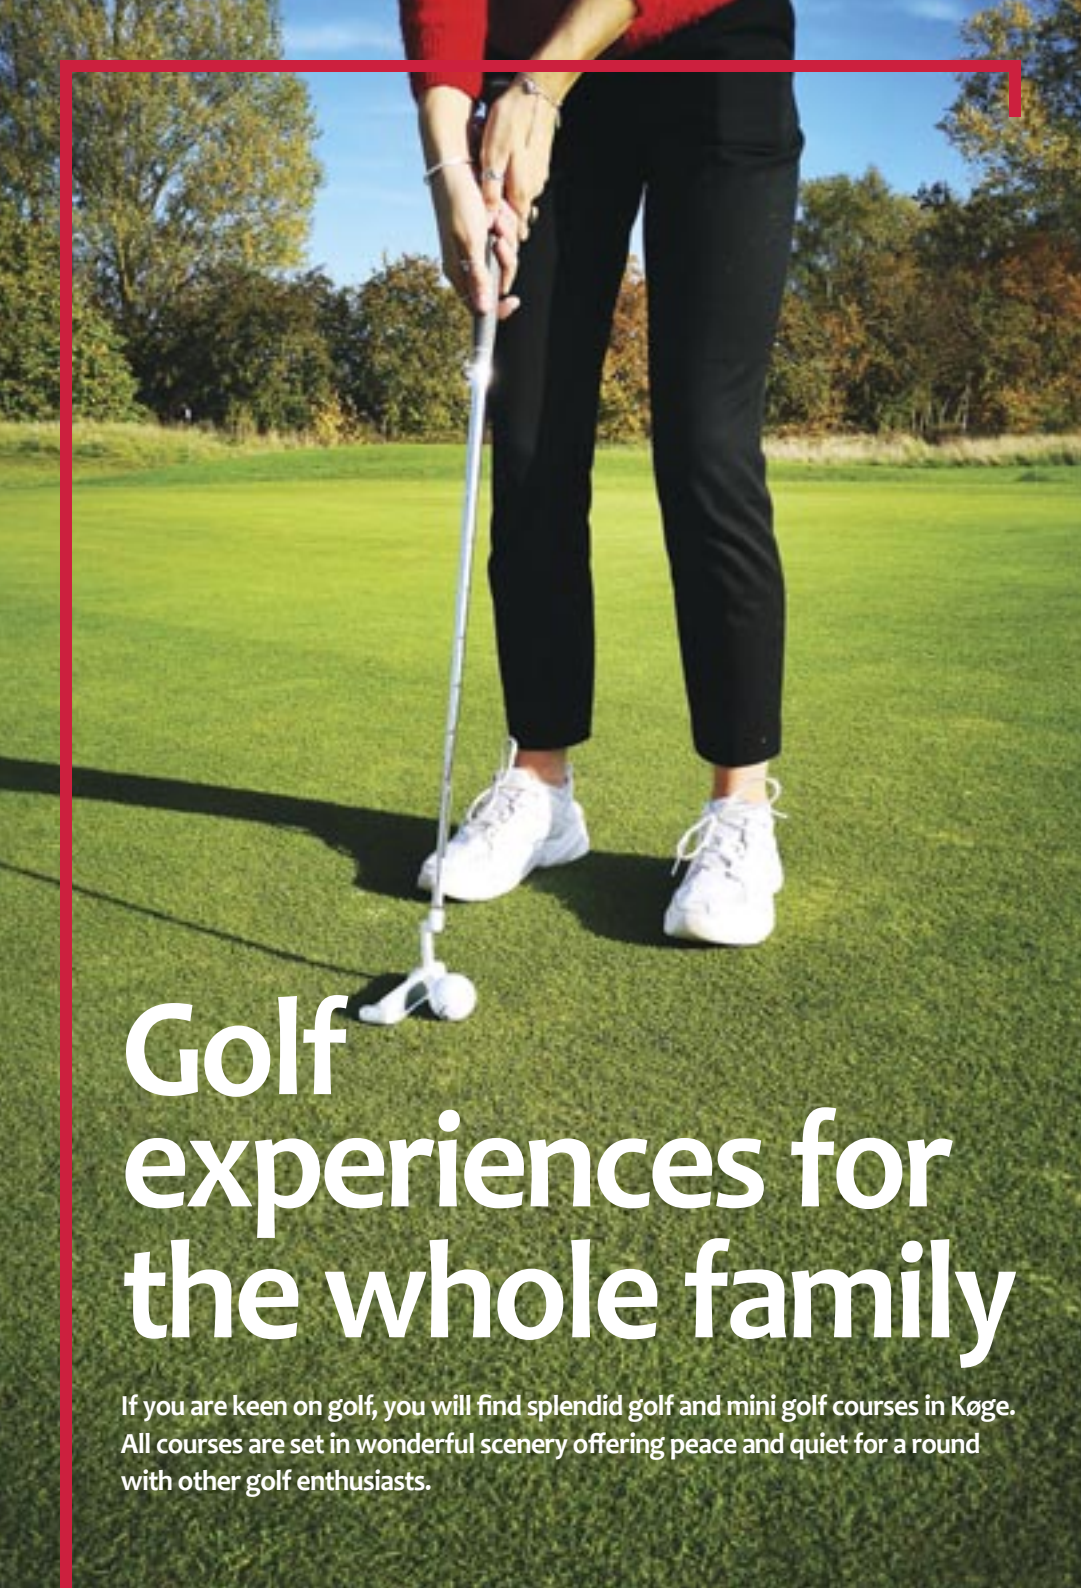

**LAKE FISHING** takes place in lakes like Kimmerslev Sø and Dalby Sø. Kimmerslev Sø is a 94 acre extremely clear watered lake, providing good pike and perch fishing in the months of spring and autumn. Dalby Sø holds excellent stocks of pike, and it also offers roach, bream and tench angling. Fishing licences are sold at Borup Library.

Five fishing platforms are available to the south in Køge Marina. They consist of huge concrete tubes covered by a cast deck with railings. Anglers have access to a shelter where they will always find a dry corner. You reach the fishing platforms via the path behind the jetty Bro 8 – and early birds will here have the opportunity to enjoy the sunrise.

- Persons aged 18-65 years must take out a valid fishing licence to be allowed to fish.
- The price for a 1-year fishing licence is DKK 185, and orders are sent via [borger.dk/Sider/Fiske-tegn.aspx](http://borger.dk/Sider/Fiske-tegn.aspx).
- In addition to the fishing licence, some lakes and rivers also require payment of day cards.
- Current preservation rules and times as well as minimum measurements are available here: [fishingindenmark.info](http://fishingindenmark.info)

# Canoe hire in Køge

**A canoe trip is a must on a visit to Køge. Canoeing, you will have a waterside view of the town and see the beautiful old houses from behind. This is a fine opportunity to gather the entire family in an activity.**

Enjoy a lovely boat ride starting from central Køge. From here it goes to the wood around the Køge Ås ridge, passing the pretty and impressive Gammelkjøgegaard Manor, and suddenly you find yourself in the wild outdoors, surrounded by trees and utter peace and quiet. No noise reaches you here, just the song of the birds.

Hiring a canoe, you have one and a half hour at your disposal. This time is sufficient to reach Køge Inner Harbour with its small fishing boats and houseboats at anchor side by side, before sailing back to your starting point.

After an active day out, you will probably need a good meal. You are welcome to bring your own hamper to enjoy in the cosy garden where canoes are hired.

#### **Life jackets:**

VisitKøge has a large number of life jackets available, but under COVID-19 rules a life jacket must be in "quarantine" for 72 hours after use. At any rate, you will need a parking disc displaying when you have left the car. The parking disc is put on display to the right behind the front windscreen and must be clearly visible from outside. Parking signs indicate how long parking is permitted in a particular place.

 5am-8.30am (market days).

Don't forget to set the parking disc when

## Restaurant Arken

- A bite of Skagen in Køge

We have brought along to Køge a small part of Skagen in the form of recipes, our service, our chef and the humour of North Jutland.

Our large varied menus for lunch and dinner are adapted to the changing seasons. In addition to our many fish specialities we also offer a wide selection of meat dishes. During the summer months more fish and seafood dishes are added to the menus.

We offer Denmark's largest seafood buffet every Wednesday, Thursday, Friday and Saturday during the summer months. The buffets begin at the end of June to finish mid September.

The buffets give you the choice of 60-70 different Danish and foreign fish and seafood dishes.

We look forward to welcoming you to the treasure trove of the sea.
